VP Activities & Development

2019 - 2020 Manifesto

- 1. Immense Recognition:** I would ensure the university gives recognition such as awards, promotions and scholarships to students/societies that are excelling in various activities as a form of encouragement. This will also encourage other students to get involved.
- 2. Financial Support:** I will work with societies to help them secure more sponsorships and organise fundraising events in order for them to run successfully without financial distress.
- 3. Inclusivity and Equality:** Ensure that societies are very welcoming to students that desire to be part of them, and every member is treated equally. I intend to regularly organise events that would include all societies. There is beauty in unity.
