

# Millie Green

## VP Education

2019 - 2020 Manifesto

1. Many students struggle to remain focused in lectures and like to prepare for beforehand. I will campaign to ensure any handouts are available 48 hours before a lecture on the dle and that breaks are provided within 2 hour lectures. Also making sure lecturers are aware of any student with additional needs to make lectures more inclusive.
2. Students from a number of courses are currently unaware of who their course reps are and how they can help improve their university experience. I will provide starter packs and deliver workshops during the year to provide guidance and support and to help get more feedback from students.
3. I will lobby the university to make more rooms available for booking and to advertise room timetables to allow more students to take advantage of the university facilities.
4. Finally, I am here to represent all students, undergraduates and postgraduates, to improve your academic experience.
